

LOGISTICS OPERATIONS SPECIALIST

Certificate of Achievement

Career/Technical (Major Code: 02922)

This certificate introduces a specialized approach to effectively and efficiently manage global supply chains, distribution and fulfillment centers. Upon completion of this certificate students will be certified in Enterprise Resource Planning (ERP) and Lean 6 Sigma white/yellow belt and have the ability to implement its methodologies, and common principles to effectively manage global supply chains and distribution and fulfillment center operations.

Program Student Learning Outcomes

- Student will assess and discuss the value of an Enterprise Resource Planning(ERP) software system and apply it to the management of the flow of goods, information, funds and people in global supply chains.
- Student will assess and discuss the value of an Enterprise Resource Planning(ERP) software system and apply it to the management of the flow of goods, information, funds and people in global supply chains.
- Student will asses, apply and evaluate the relevance and interconnectedness of leadership ethics, concepts and key attributes of individual, team and organizational leadership.

Gainful Employment

The U.S. Department of Education requires colleges to disclose a variety of information for any financial aid eligible program that “prepares students for gainful employment in a recognized occupation.”

Students who complete this program will have acquired the necessary analytical tools to successfully secure gainful employment in the field of study.

For more information regarding the data provided for this program and what it means to you as a student, please feel free to visit our SWC Gainful Employment website at: www.swccd.edu/gainfulemployment (<http://www.swccd.edu/gainfulemployment/>).
