Southwestern College Food Services is committed to providing our students, staff, faculty and guests with high quality foods and excellent customer service in a clean and safe environment. The SWC Food Service Department provides breakfast, lunch, and dinner options which meet various price points.

Southwestern College Food Services welcomes you to our inviting hospitality, high quality cuisine, and exceptional customer service for your campus event. We are proud to be the exclusive caterer for the college community and its guests. By keeping your catering needs on campus, the revenue generated goes back to the college and helps subsidize costs for SWC students.

Whether you are planning a seated luncheon, full day conference, morning team meeting or student afternoon reception, we offer catering and beverage services to match your taste and budget. We provide service at all SWC indoor and outdoor locations throughout the campus, including conference rooms, classrooms, offices, lawn areas and athletic fields.

Our dedicated team looks forward to serving you!
